“The purpose of staff development is not just to implement isolated instructional innovations; its central purpose is to build strong collaborative work cultures that will develop the long-term capacity for change.” Michael Fullan

**[Activating a Motivating and Engaged Brain: The Seeking System](#)
[EDU 661118 Empire State College](#)**

This course focuses on improving student attention, engagement, and perseverance, by activating the innate SEEKING System that drives the motivated brain. Participants examine the brain science that underlies each processing network of motivation, memory, and higher-level thinking. They learn to design lessons and incorporate activators (or strategies) that support each processing level and maximize the SEEKING System of the motivated brain.
